Title: NESHAP for Paper and Other Web Coating (Renewal)

ICR Numbers: EPA ICR Number 1951.05, OMB Control Number 2060-0511.

ICR Status: This ICR is scheduled to expire on July 31, 2012. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The NESHAP for Paper and Other Web Coating is subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes or additions to the Provisions are specified at 40 CFR part 63, subpart JJJJ.

Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 22 hours per response. “Burden” means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the

collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of paper and other coating facilities.

Estimated Number of Respondents: 233

Frequency of Response: Initially, occasionally, monthly, and semiannually.

Estimated Total Annual Hour Burden: 11,861

Estimated Total Annual Cost: \$2,069,373, which includes \$1,136,498 in labor costs, \$233,500 in capital/startup costs, and \$699,375 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an increase in labor hours and costs for both the respondents and the Agency from the most recently approved ICR. The increase in burden cost is due to adjustments in labor rates. This ICR uses updated labor rates from the U.S. Bureau of Labor Statistics to calculate burden costs. The increase in labor hours is due to an increase in the number of respondents subject to the standard from the previous ICR. The growth in the respondent universe also results in an increase of the total O&M costs to the respondents.
